

pre-TDR document, about subsystems (Chapter 8)

- **After further discussions with PM**
 - Limited number of pages in main TDR text is confirmed
 - the other information (even if abundant) in Appendices
 - How Appendices implemented in overleaf ?
 - scheme discussed with Doug: at present, Appendices in the same subsystem sub-subsection; later they will be moved at the end
- The **scheme for the text dedicated to each subsystem** discussed at TIC (twice, comment collected, then approved) is being implemented in the overleaf document
 - When this is ready, writing privileges will be distributed to DSLs and DSTCs
- **Figures, in particular plots:** a structure under study by Doug and Markus to preserve, for each plot, the information to make it riproduceble (macro, which data sample, ...)
 - More news at a alter stage
- **Plot Format:** a common format for root plots will be worked out (by AC, SCC and TC-office) and, then, distributed
