

EIC Coll Tools - Intro

07/10/2024

- Follow up on previous meetings

News

- Peter provided a preliminary list of document types to be implemented for testing purposes
- Uma presented a prototype of the upload page under InvenioRDM v12 – Plans for the current ePIC version?
- Rob and Jerome are on vacation this week. (Peter is close to being...)

Document types

- Eric requested a restricted list of document types for InvenioRDM
- **Possible list**
 - Presentation (slides)
 - Internal note
 - Public note
 - Conference note
 - Conference proceedings
 - Technical note
 - Physics paper
 - Detector paper
 - Physics plot(s)
 - Performance plot(s)
 - Simulation plot(s)

Connections with JLAB

- A meeting with JLAB proposed (by JLAB) for Monday, 7/15
- Please indicate time preference here:
<https://app.rally.co/invite/msYzHSi39HCv>
- Questions from JLAB:
- Document prepared to collect our draft answers, please contribute:
<https://docs.google.com/presentation/d/1txKcNWyl6eqTkGOu-CT9qR0QIF5kqvj9ocGzaExJbm0/edit?usp=sharing>

Miscellaneous

- How global authorizations (*everyone, member from ePIC, management*) are propagated from the Digital repository (aka phonebook) to the Document repository (aka InvenioRDM)
 - **Everyone:** can read a public document
 - **Member:** can read private documents and edit some under some roles within a group
 - How are groups/roles propagated? (example editor paper X)
 - **Management:** can read and write documents private to that group only
- How to connect Digital Repository with Indico: a dedicated meeting with Indico @ BNL maybe required
- Have been told that the ePIC website needs a connection to 'Phonebook'. Not clear what that means. A dedicated meeting may also be required.

Acronyms for the workflow management system

TRACE <ul style="list-style-type: none">•Tracking•Resource•Analysis•Collaboration•Engine	VISIO: <ul style="list-style-type: none">•Versatile•Integrated•System for•Information and•Organization	STREAM: <ul style="list-style-type: none">•Scientific•Tool for•Research and•Experiment•Access and•Management	MIRROR: <ul style="list-style-type: none">•Management•Interface for•Research•Resource•Organization and•Reporting	SPARK: <ul style="list-style-type: none">•System for•Project•Analysis,•Research,and•Knowledge	FLARE: <ul style="list-style-type: none">•Framework for•Logistical•Analysis and•Research•Environment	SCRIBE: <ul style="list-style-type: none">•Scientific•Collaboration•Resource•Integration•Based•Environment
