

# New York Scientific Data Summit 2024: Addressing Data Challenges in Digital Twins

## Tuesday, 17 September 2024

### Validation, Verification and Uncertainty Quantification (VVUQ) (08:40 - 10:00)

-Conveners: Mohammad Atif

time	[id] title	presenter
08:40	[18] Fusion Energy Digital Twins - from Experiment to Power Plant	CHURCHILL, Michael
09:00	[20] Recent developments in uncertainty quantification and model validation for complex systems	GHANEM, Roger
09:20	[19] Uncertainty in Digital Twins from Imperfect System Information	URBAN, Nathan
09:40	[21] Navigating uncertainty to build trust in digital twins	CHAUDHURI, Anirban
