

ePIC membership committee: Statement of service v2

P. Antonioli and P. Steinberg, ePIC GM 6 Dec 2024

Statement of service update

- **Culmination of ePIC membership committee process**
 - Thank you to ePIC collaboration for the input on this!
- **Crucial for ePIC to learn**
 - Who is in ePIC, what they are doing, and how much of their time is spent on it
 - Longer term projections - these are plans, and are considered 100% confidential
- **Unfortunately, v1 of the statement of service had several issues**
 - FTE/author calculation had a bug
 - Use of short detector names instead of official DSC names
 - Some missing committees, WGs and DSCs
 - Some tasks were requested as people tried to add their members
 - Missing position (“masters student”) strongly requested by some members
- **So after a non-trivial revision process and review by ePIC management and CC chairs, we have released a new version (v2)**
 - All 191 CC members on our list should have received it yesterday from Pietro Antonioli
 - This is the original list, not including new ePIC institutions, and with some CC members who have been changed - we will be coordinating with CC to address this with an updated list
 - The next iteration of this process will be fully DB-driven and automated (work at BNL already begun on this)
- **Old sheets can be copied-and-pasted into new one**
 - But only copy “by value” - or else you will overwrite the new lists required by each cell!

New list data

| A | B | C | |
|--------------------------------------|-----------------------------------|-----------------------|------------------------|
| ePIC entities | Task | Positions | Effort by year |
| Silicon Trackers | electronics | professor | physics performance |
| Gaseous Trackers | simulation | research professor | detector simulation |
| Backwards RICH | physics performance | staff scientist | software and computing |
| hpDIRC | sensor characterization | staff engineer | detector construction |
| AC-LGAD TOF | active material studies (TB, lab) | staff technician | |
| dRICH | detector assembly | post-doc | |
| Backward HCAL | cooling | PhD student | |
| Backwards ECAL | calibration | undergraduate student | |
| Barrel ECAL | mechanics | masters student | |
| Barrel HCAL | reconstruction | | |
| Forward ECAL | software | | |
| Forward HCAL | services | | |
| Far Backward High Rate Tracker | general engineering | | |
| Luminosity | detector integration | | |
| Far-Forward | ePIC management | | |
| Spokesperson Office | DSC management (DSL / DSTC) | | |
| Executive Board | convener | | |
| Ad-hoc committees | committee member | | |
| Collaboration Council Chair Office | committee chair/vice-chair | | |
| DE&I Committee | local group management | | |
| Membership Committee | other | | |
| Publication Committee | | | |
| Conference and Talks Committee | | | |
| Elections Committee | | | |
| Analysis Coordination | | | |
| Inclusive Physics WG | | | |
| Semi-Inclusive Physics WG | | | |
| Jet and Heavy Flavor WG | | | |
| Exclusive Diffraction and Tagging WG | | | |
| BSM and Precision EW WG | | | |
| Technical Coordination Office | | | |
| PID CC WG | | | |
| Electronics Readout & DAQ CC WG | | | |
| Tracking CC WG | | | |
| Calorimetry CC WG | | | |
| Software and Computing Coordination | | | |
| Streaming Computing Model WG | | | |
| Physics and Detector Simulation | | | |
| Reconstruction WG | | | |
| Production WG | | | |
| User Learning WG | | | |
| Validation WG | | | |

Details on changes

- **The FTE/author calculation is now fixed**
- **The following WG were missing and are now available:**
 - Reconstruction WG
 - Production WG
 - User Learning WG
 - Validation WG
 - Physics and Detector Simulation
 - Calorimetry CC WG.
- **The names of the DSCs and other groups are now the same as on the ePIC website**
- **Several new tasks are also available following received input**
 - general engineering
 - detector integration
 - DSC management
 - convenor
 - committee chair/vice-chair
 - “miscellanea” has been renamed “other”
- **“Masters student” has been added to the list of positions, as many have requested.**

Reminder of deadline

- **Official deadline**
 - 31 December 2024
- **However, if you have the time, we would all benefit from receiving more of them by mid-December**
 - Please try and submit by 16 December
