

# INTT experts Shift Rules

<b>INTT</b> <b>*primary contact</b>	<i>*Rachid Nouicer (BNL)</i> ▼	<b>631-652-5042</b>
	----- <i>Genki Nukazuka (BNL)</i>	----- <b>631-816-3268</b>
	----- <i>Itaru Nakagawa (BNL)</i>	----- <b>934-226-8549</b>
	----- <i>Akitomo Enokizono (Japan)</i>	----- <b>934-226-7791</b>

- There are only above 4 personnels to be the INTT expert.
- The personnel listed at the top suppose to make the decision for the or operation modes and conditions or to recover from issues and troubles.
- Any other experts got call should consult with the primary expert to get approval for actions and decisions.
- The primary contact is to be rotated upon the availability of a personnel. Should have sufficient overlaps during transition. The above list supposed to be updated accordingly.
- In the case the primary contact cannot resolve the issues, the primary contact should contact Rachid to solve the problem which he will seeks for support from the BNL experts if needed (coolings, powers, Felix servers, etc.)
- Reporting in shift change meetings doesn't have to be made by above experts (can be done by students)
