CALOROC development status

- ❑ CALOROC project and submodules moved to GIT
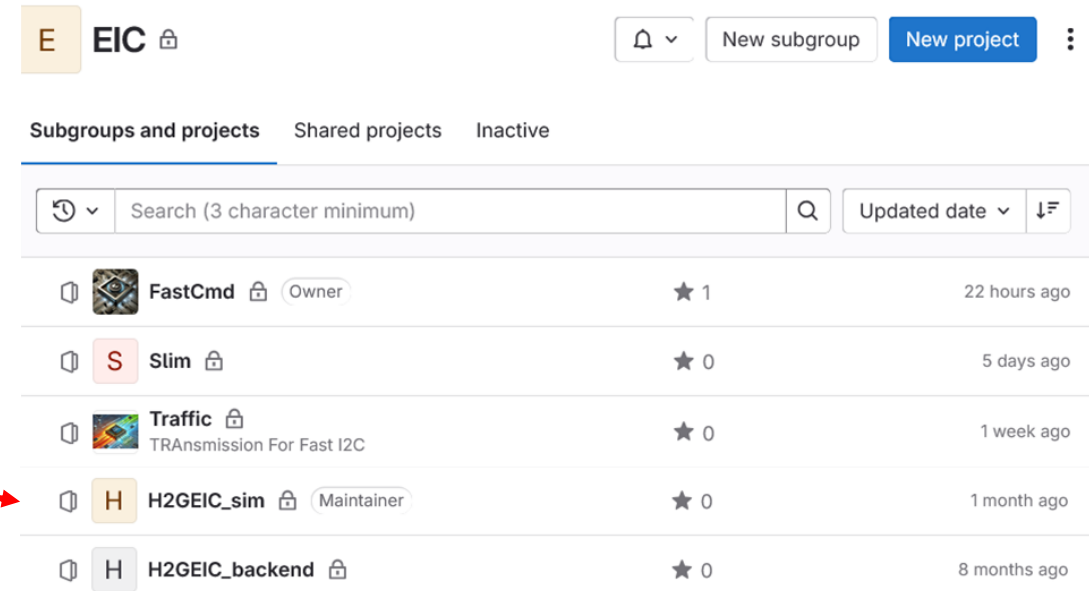

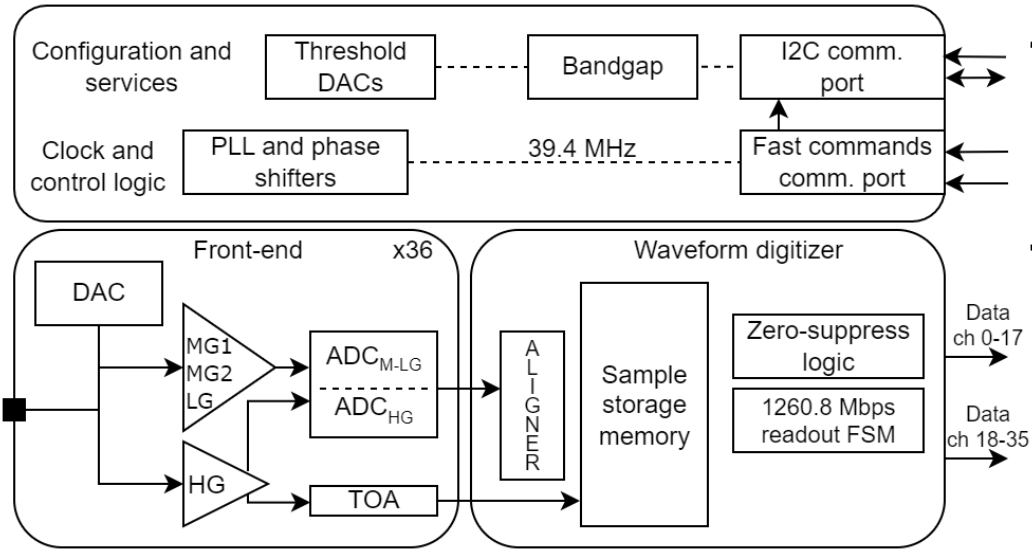

- ❑ Submodules RTL codes are frozen

- ❑ WIP: fully-assembled RTL verification (mid October)
- ❑ WIP: RTL to schematic scripts under development started (ready end of October)
  - ❑ Contact with CADENCE support for specific points

Layout start foreseen in November

- ❑ WIP: 3x "mini" design reviews (analog to digital, main core and fast commands)
  - ❑ Final mini-review is October 11
