COmanage Enrollment Flow

• Detailed steps

e. Lancon, 9/24/24

Why register with COmanage?

- COmanage streamlines access to BNL-based web services by allowing users to authenticate either with a BNL account or through their home institution's credentials via any InCommon Identity Provider.
- This eliminates the need for non-BNL users to create a BNL-specific account.
- Comanage serves as the tool to validate your identity against the list of ePIC members provided by the Phonebook.

Enrolment Flow

1. Create an Entry in COmanage:

Log in to the SDCC COmanage instance and set up your profile.

2. Phase I - Link to Identity Provider:

Connect your COmanage entry to your institution's Identity Provider (IdP).

3. Phase II - Email Validation:

Verify your entry by following the link sent to your email.

4. Link to ORCID:

Connect your COmanage entry to your ORCID. This unique identifier helps disambiguate individuals. If you don't have one yet, you can easily register at this <u>link</u>.

Self Signup to SDCC COmanage

Follow that <u>link</u>

More information available at this <u>link</u>
