

# Preliminary Design Report – SVT

- **Feedback from eight collaborators:**

- Includes Rachel Montgomery and Taku Gunji, who were collaboration assigned readers to the SVT sections,
- Most feedback entails localized edits (language, acronyms, etc) – no factual issues identified or issues that require more substantial revision,

- **Feedback was fanned out to all authors / contributors:**

- Most feedback has been incorporated in our local version of the document,
- A global editing pass is in progress,

- **We will finalize and incorporate the above in the central document by December 1,**

- We have been in contact with most reviewers, in many cases simply acknowledging their effort,
- We do not intend to respond point-by-point to the feedback received, although we keep shared notes,

- **Miscellaneous:**

- SVT and MPGD sections both contain elements of tracking – warrants a pass among the groups,
- Connection between chapters 2 and 8 in v0 left room for improvement in most areas, including SVT – raises questions on steps beyond v1.
