

TIC meeting

November 25th

preTDR, Version1 (1/2)

THE DEADLINE IS NOW MOVED TO FRIDAY DECEMBER, following several suggestions

To avoid having it in the week-end following Thanksgiving.

This new date makes the deadline very near to the period of the end-of-the-year break.

Therefore, it cannot be missed: it is a **VERY FIRM DEADLINE**.

Thank you for understanding and matching it.

There are requests of information about the **FOLLOWING STEPS**.

The organization and schedule of the preTDR activity in 2025 depends also on external parameters, where the outcome of the DOE OPA review in early January 2025 is one of them.

Therefore, a schedule of the 2025 activity will be presented for discussion at the ePIC Collaboration meeting in January 2025.

preTDR, Version1 (2/2)

Among the IMPROVEMENTS EXPECTED in Version1:

- Make use of the comments and recommendations from the internal review.
When needed, engage a conversation with the reviewers (clarification, discussion, ...)
- Please, follow the "**Guidelines for Reproducing TDR Plots**",
ZENODO, ePIC community, access restricted to ePIC Collaborators (<https://zenodo.org/records/14170704>)
example: BIC DSC repository
- About the topics "**Collaborators and their role, resources and workforce**":
Costs and timelines are detailed in in P6, no need for a complete duplication
Some underline of the time required by major activity steps can be appropriate.
Indicate the collaborating institutions and their contributions (gross features) using **table** format.

TIC meeting calendar in December 2024 and January 2025

January 2025

-  27 Jan TIC meeting - CANCELLED - traveling back from ePIC Collaboration meeting **NEW**
-  20 Jan TIC meeting - CANCELLED - ePIC Collaboration meeting **NEW**
-  13 Jan TIC meeting - **NEW**
