

# Reviewers Feedback on TOF v0

- Thank you, Nicole Apadula and Dominique Marchand for their time and effort in reviewing our sections, and constructive feedbacks:
- Consistency among different sections (written by different collaborators)
- Clarity on certain items: BTOF (strip) vs FTOF (pixel)
- Requirements and needs
- Numerous text and editing suggestions

# Action items

---

Assign Coordinators to go through the whole draft for consistency and overall readability

---

Section writers check and update with new information and feedback from the reviewers

---

DSLs checks and updates text/English errors

---

Clarify Physics Requirement, BTOF/FTOF properties (commonality and difference)

---

Remove detailed schedule/cost tables

---

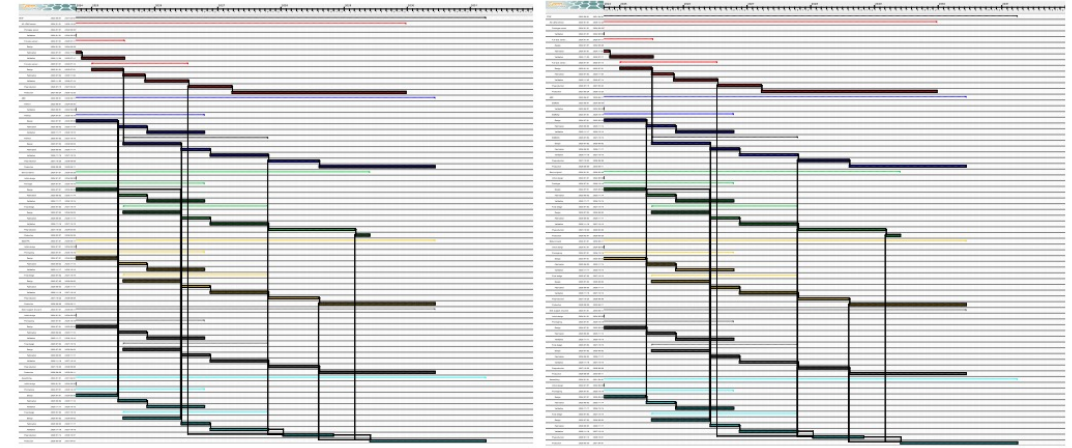

Figure 8.18: Schedule of BTOF and FTOF projects (2024/10/05 version.)

Items we believe that need pointers and clarity, but should not be a complete overhaul:

Physics Requirements:

In Physics Sections and PID overview section

Completely separate BTOF and FTOF as two independent subsystems
