

Updates from ACs

Rosi Reed (Lehigh) - Salvatore Fazio (Calabria)

□ **New meeting time:** Tuesday 8:30AM (biweekly) – *ideal for all or we more 1h later?*

- Next A.C. meeting will be on December 10th

○ **preTDR activities**

- V1.0 ready by **December 6**. We need input from PWG by **December 3**
 - use our copy **overleaf**. Editing by PWG Conveners has been reopened last week
 - General comment: we need to evolve into a **coherent text**. V0 still looks like bits and pieces stitched together → we aim at having reviewers also for ch.2
 - **Incorporate the inputs** we have received from the collaboration (.xlsx file circulated)
 - Specify how each of your plots drives the detector performance
 - e.g.: required resolution of key detector components
 - more indications today by the SP's office

Updates from ACs

Rosi Reed (Lehigh) - Salvatore Fazio (Calabria)

- **EIC Early Science – plenary session in Frascati: Wed. Jan 22nd, 9AM-1PM**
