

# STAR Status (July 8 - 15, 2025)

Ashik Ikbal Sheikh

## STAR status now:

- Hi-lumi: No crossing angle, leveling ZDC at 100kHz
- Low-Lumi: 1 mrad crossing angle, leveling ZDC at 13kHz

Efficient data-taking from STAR when we have beam

- STAR magnet issue – took almost a day to fix
- Problems addressed expediently to minimize downtime
