

Physics

- RHIC is running well
 - > 98/96% ramp efficiency
 - > 56 cryo issue, not available after Friday
- STAR 100kHz leveling now sustained for over 2 hours from lumi event
- Successful flat beam acceleration APEX for EIC
- All 6 planes of SC available
- Severe weather standdown and power dip recovery caused ~12 hours of downtime Friday night, but overall availability is 83% for the week.

Moving ahead

- ◉ Maintain quick turnaround times
- ◉ No 56 this week, experts are out
- ◉ Maintenance Wednesday
- ◉ PHYSICS
