

RHIC Time Meeting (Week25: 09/08 - 09/15)

- RHIC is getting ready for physics after recovery from the 69 kV power line damage
- Injector is already set, achieved the beam intensity of $3e+9$ with four pulses on 09/04
- We had a 12×12 collisions last night, unfortunately, it didn't last longer
- We have the blue main dipole issue caused by the PLC interface card (in its regulator).
- RHIC PS group is troubleshooting on it

Monday: 09/08

- Booster MMPS has transferred to alternate line
- Beam collisions for a short time.

Tuesday: 09/09

- Physics stores after troubleshooting completed

Wednesday: 09/10

- Maintenance day is cancelled. Next maintenance will be on Sep 25th
- We skip APEX to re-establish the physics program after a long interruption

Thursday: 09/11

- Physics stores

Friday: 09/12

- Physics stores

Saturday: 09/13

- Physics stores

Sunday: 09/14

- Physics stores

Monday: 09/15

- Physics stores
