

Physics Running

- A few multi-hour failures in the first half of the week. Last 3 days have been exceptionally good.
- 3-1 merge configuration done in the AGS, will be testing it for a RHIC fill soon. Will save a couple minutes of fill time and the associated beam growth from IBS.
- Short (2 hrs) no-magnet store for sPHENIX today
- APEX Wednesday

Moving ahead

- ◉ Keep on keeping on
- ◉ PAC review this week, plan for the end of the run comes after that report.
