

# Physics Running

- Best week of the run
  - Intensities are holding, machine efficiencies are the highest of the run
- Proton development continues in the injectors
  - 2e11 with nominal polarization has been extracted to the w dump

# Moving ahead

- ◉ Physics
- ◉ Maintenance Monday to switch over to protons
  - > Install yellow polarimeter targets and pump down
  - > Remove 9 MHz RF cavity shorts
  - > Beam work begins as soon as the ring is locked up
