

# PP Running

- Another good week of uptime
  - Unexplained problems with RampManager/OptiCalc model on Friday
  - sPHENIX EMCAL power supply on Saturday
- Per-store integrated lumi up 10-15% over last week
- 2.3-2.35/bunch at physics on
  - More beam in doesn't give more beam at the start of the store

# Moving ahead

- PP running until sPHENIX hits their mark
- K Hock will be acting Run Coordinator next week
