Reminder from Operations

- MCR beam operations continue
 - RHIC physics continues this week with polarized protons from LINAC
 - NSRL beam restoration TBD.
 - ORC required, at minimum.
 - BLIP target production not scheduled until March.
 - Beam in BLIP line ORC cancelled, due to pending restart authorization.
 - AGS tuning, pp setup, other studies to continue behind stores as time allows.
- *MCR shift coverage 24/7*
