Time Meeting
January 13, 2026

Last Week at RHIC

RHIC Status

- Physics running since 12/8 with $\sim 2.4 \times 10^{11}$ protons/bunch at physics, $P_{blue}, P_{yellow} = 56\%, 52\%$.
- No-field run for sPHENIX completed.
- STAR MM cooling, one successful test. Will look for more testing opportunities to confirm results. Operation at full field needs to be established prior to FXT run.
- Collimators toggling every other store to correct/incorrect positions. Resolved with additional command to send to correct position.
- PS system repairs: yi2-tq6 PS swapped, yo9-qd7 ZFCT card replaced.
- BBQ FEC hung with no indication, resulting in two lost ramps.
- h-jet repaired (out of service through the weekend).
