

## Tutorial Session - Uproot and Accessing Data

*Wednesday 14 May 2025 12:15 (45 minutes)*

A short tutorial session to end the day, a quick look at the python Uproot package that we will be using extensively going forward.

What is a root file? What is uproot? What can we do with our files?

Homework assignment to try after the session.

**Presenter:** KAY, Stephen (University of York)
