

**Subject:** Re: [[Sphenix-intt-l] ] Weekly INTT Meeting  
**From:** Itaru Nakagawa <itaru@riken.jp>  
**Date:** 2025/04/04 10:33  
**To:** sphenix-intt-l@lists.bnl.gov

Dear all,

Here are the minutes from today's meeting. The first physics paper  $dN/d\eta$  is now arXived:

<https://arxiv.org/abs/2504.02240>

**Congratulations to PPG02!!**

---

o Rehearsal of QM Poster <Jaein>

- **Jaein** may want to mention about the active region before  $dN/d\eta$  result as a part of successful INTT operation.
- The z-vertex MBD vs. INTT plot was made without aggressive multiplicity cut on the INTT clusters.
- **Jaein** may want to read the annual report of the beam test before his poster presentation to be prepared for QA.

o Software preparation for Run25 <Akitomo>

- **Mahiro** will work on the implementation of the z-vertex reconstruction to the offline QA. Then also try to work on XY reconstruction as well for field on as well.
- **Akitomo** will develop the scheme to monitor the offline QA results with minimum efforts even by remotely.
- According to Jaein, the OPC2 is the the cause of slow response of GraphAna. **Akitomo** and **Jaein** discuss how to get rid of OPC2 server. Yui developed the interface last year. **Yui** and **Jaein** will work on its implementation.
- **Yasuyuki** and **Cheng-Wei** discuss about how to utilize field on XY vertex reconstructed distribution as offline QA.

Regards,

-itaru

Dear all,

We will have this week's INTT regular meeting at the following date/time. Please upload your slides to the Indico page if you have anything to discuss.

Date/Time:

**April 3rd Thursday 8PM in BNL = April 4th Friday 9AM in Japan&Korea  
= Friday 8AM in Taiwan**

Indico link:
