

Intermediate Silicon Tracker (INTT)

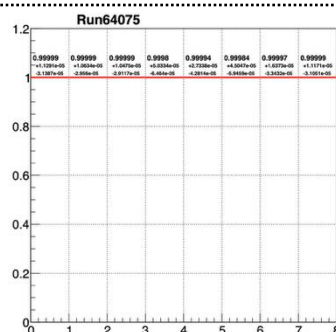

Pedestal measurements confirmed the detector condition as good as 2024.

South

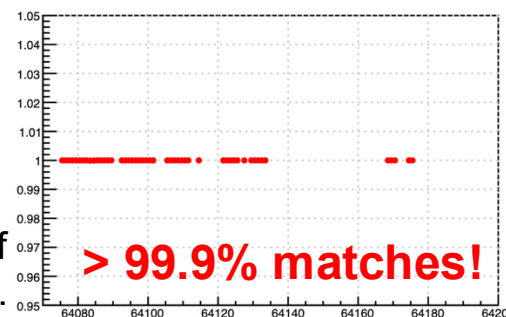

99% alive!
North

Low-level study reproduced excellent matching to the trigger data, which was already achieved in 2024

Matching efficiency of INTT to GL 1 of a cosmic run is at 1.

.. and as a function of recent run in 2025.

Thanks to help by sPHENIX colleagues, INTT is ready for Run25!!!

Lots of effort by lots of onsite crew
