

# BarrelHCal cable test

Norbert Novitzky  
(ORNL)

Thanks for help from Anjaly, Olaiya  
and of course Martin and Eric

# Cable test checks

## My observations:

- The signal arrives later (that's expected)
- The rising times is longer
- The falling edge is maybe similar or longer
- Overall shape is more symmetrical than before
- Maybe there is an additional (ringing) after the pulse
