

# DNP Community Meeting

January 12, 13:00-17:00 ET

# Registration is still open through today

- Register at <https://indico.phys.utk.edu/event/290/registrations/7/>
- This meeting is to update where we are with respect to the 2023 Long Range Plan for Nuclear Science
- We will have reports from some of the chapter conveners
- Representatives from DOE and NSF will give presentations that speak to questions curated by the DNP chair line from the community

# Program

- Post NSAC Landscape (Gail Dodge or other past NSAC member)
- Nuclear Structure, Reactions and Astrophysics (Ani Aprahamian)
- Hot and Cold QCD (Richard Milner)
- Fundamental Symmetries, Neutrons and Neutrinos (Brent VanDevender)
- Nuclear Theory (Filomena Nunes)
- Workforce Development and Outreach (Shelly Leshner)
- Long Range Plan Budget (Sherry Yennello)
- DOE (Linda Horton/Sharon Stephenson/Paul Mantica)
- NSF (Allena Oppen)
- Q&A period to follow

# Follow ups

- There will be a second town hall, already announced with a save the date, on 13 February from 12-16 ET
- This will be focused on facilities with reports from BNL/EIC, JLab, FRIB, INT, double beta decay experiments and others
- Further details will be forthcoming soon and an announcement will be made with registration information, stay tuned.
