

BHCal Meeting, General Announcements

Stefan Bathe

Last week's talk by Andrew Hurley on Muon ID with BHCaI

- Created MM channel “BHCaI Muon ID” to put Andrew (and other interested parties) in touch with Derek, who sent pointers on how to get to individual tile information in simulation
- Nathaly has a new postdoc, Jan, starting today, who's also interested in working on simulation

Spare tile proposal

- Proposal was to get ~ 10 % spares, initial cost estimate \$250 k
- Ran this by Elke, she thinks it's reasonable
- She says Edward Kistenev cannot be formal contact person b/c he's retired
- No response from Ed O'Brien yet on cost for material shipped to Uniplast (sPHENIX)
- Update from Murad on possibility of legal contract GSU-Uniplast?

Agenda

- Update on move to High Bay: Eric, Martin
 - Nathaly's postdoc Jan stationed at BNL for a few months starting in a week, is interested in getting involved with setting up read-out
- Simulations: updates from Olaiya, David?
