

# Jets & HF WG status towards preTDR

- Heavy Flavor

- Technical figures are mostly ready and included in the draft.
- Text for 4.4.4.1–3 is basically ready.
- Remaining section for background influence will come when the samples are available
- Physics projection plot: need to solve the issue of D0 decay vertex coinciding with primary vertex in the eAu sample.
  - Working with Kolja on this issue now

- Jets

- Text for 4.4.4.5 (“Jets as a Hard Probe”) is ready
- Analyzers are still working on producing performance plots and physics projection plots.
