

# Updates from PACs

Rachel Montgomery (Glasgow) & Salvatore Fazio (Calabria)

Rosi Reed (Lehigh)

**Physics Analysis Coordination Meeting – Nov 18<sup>th</sup>, 2025**

- **Workfests at the Collaboration meeting** in January
  - A call for Workfests by John is already out
  - After discussion with the SPs and Coordinators, we plan to book a (half-day?) slot for a **TDR+ESR** dedicated parallel
  - We have noticed the same PWGs tend to propose parallels at every Collab. Meeting
    - **Option 1:** a longer all encompassing physics parallel with dedicated slots for each PWGs
    - **Option 2:** we try to organize worfests around defined technical tasks rather than PWGs
    - **Option 3:** we keep things as they are now
- ...PAUSE FOR a BRIEF DISCUSSION...*
- **Physics Readiness Workshop in Italy – 17-19 March 2026**, hosted by Calabria U. & INFN Cosenza
  - **Please register:** <https://indico.bnl.gov/event/30283/>
  - **People at Nat.l Labs:** important to prepare travel 2 months ahead

# Updates from PACs

- **TDR** – Ed.B. took a snapshot on Nov. 12 to discuss with PACs on Nov. 19
  - **Please keep editing!** The process continues till December. Let's keep the good momentum!
- **October simulation campaign going well**: started on 17<sup>th</sup>
  - Some issues have been, e.g. with the FF detectors being addressed by Alex
    - Markus, John and PACs agree to possibly use November campaign as a patch
    - November campaign will not have significant differences, other than fixes
  - **Prioritization of November campaign**: simulations affected by the **fixes** and **new simulations** will be prioritized the highest
- **Results release** – Needs **PWG approval, Analysis Note, code archived**
  - First chance for presentation to the whole Collaboration is at the **General Meeting of Dec. 5**
  - **Any PWG ready to release results by then (or by another time scale)?**
  - Physics papers by the ePIC collaboration envisioned in 2026:
    - Early Science of exclusive+ diff PWG (early 2026)
    - Early Science Reports (Fall 2026)
    - Spin off from TDR chapter 4 (late 2026 / beginning 2027)
