ePIC Beam Times CERN 2026

Oskar Hartbrich

ORNL

U.S. DEPARTMENT
of ENERGY

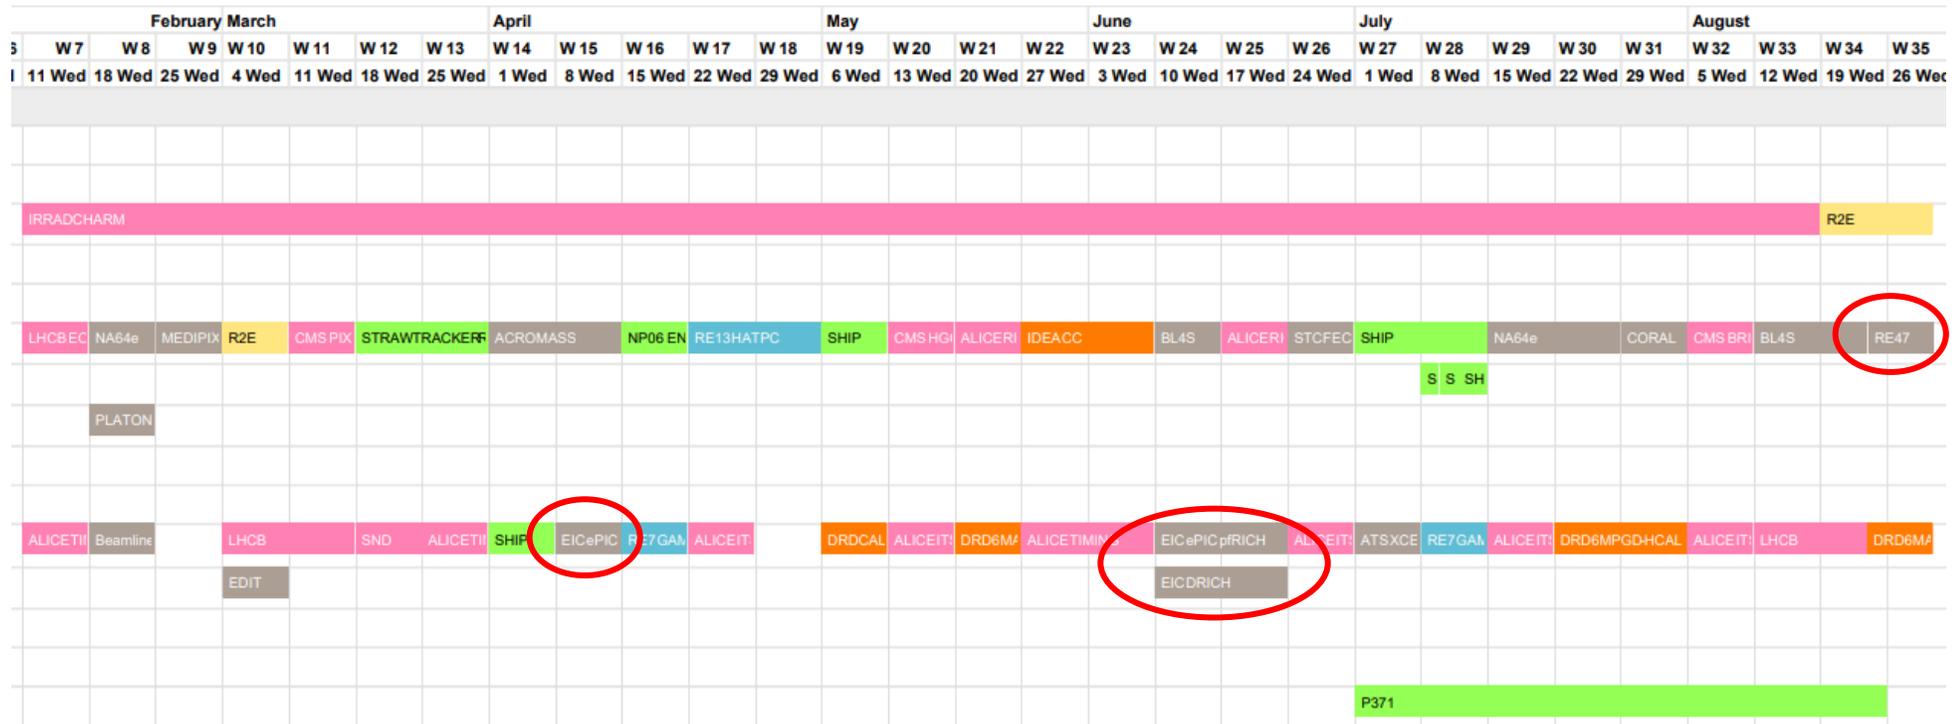

ORNL IS MANAGED BY UT-BATTELLE LLC
FOR THE US DEPARTMENT OF ENERGY

Mature PS/SPS draft schedules available

- ePIC applied for various beam times: dRICH, pfRICH, BIC, MPGDs, LFHCAL, AC-LGADs
- ePIC program has not been ratified by PS/SPS council
 - We are operating in the margins of the schedule and by good will of the beam time coordinators
 - Especially important that ePIC subsystems are good tenants of space and time given to us
- All details available here: <https://ps-sps-coordination.web.cern.ch/ps-sps-coordination/>

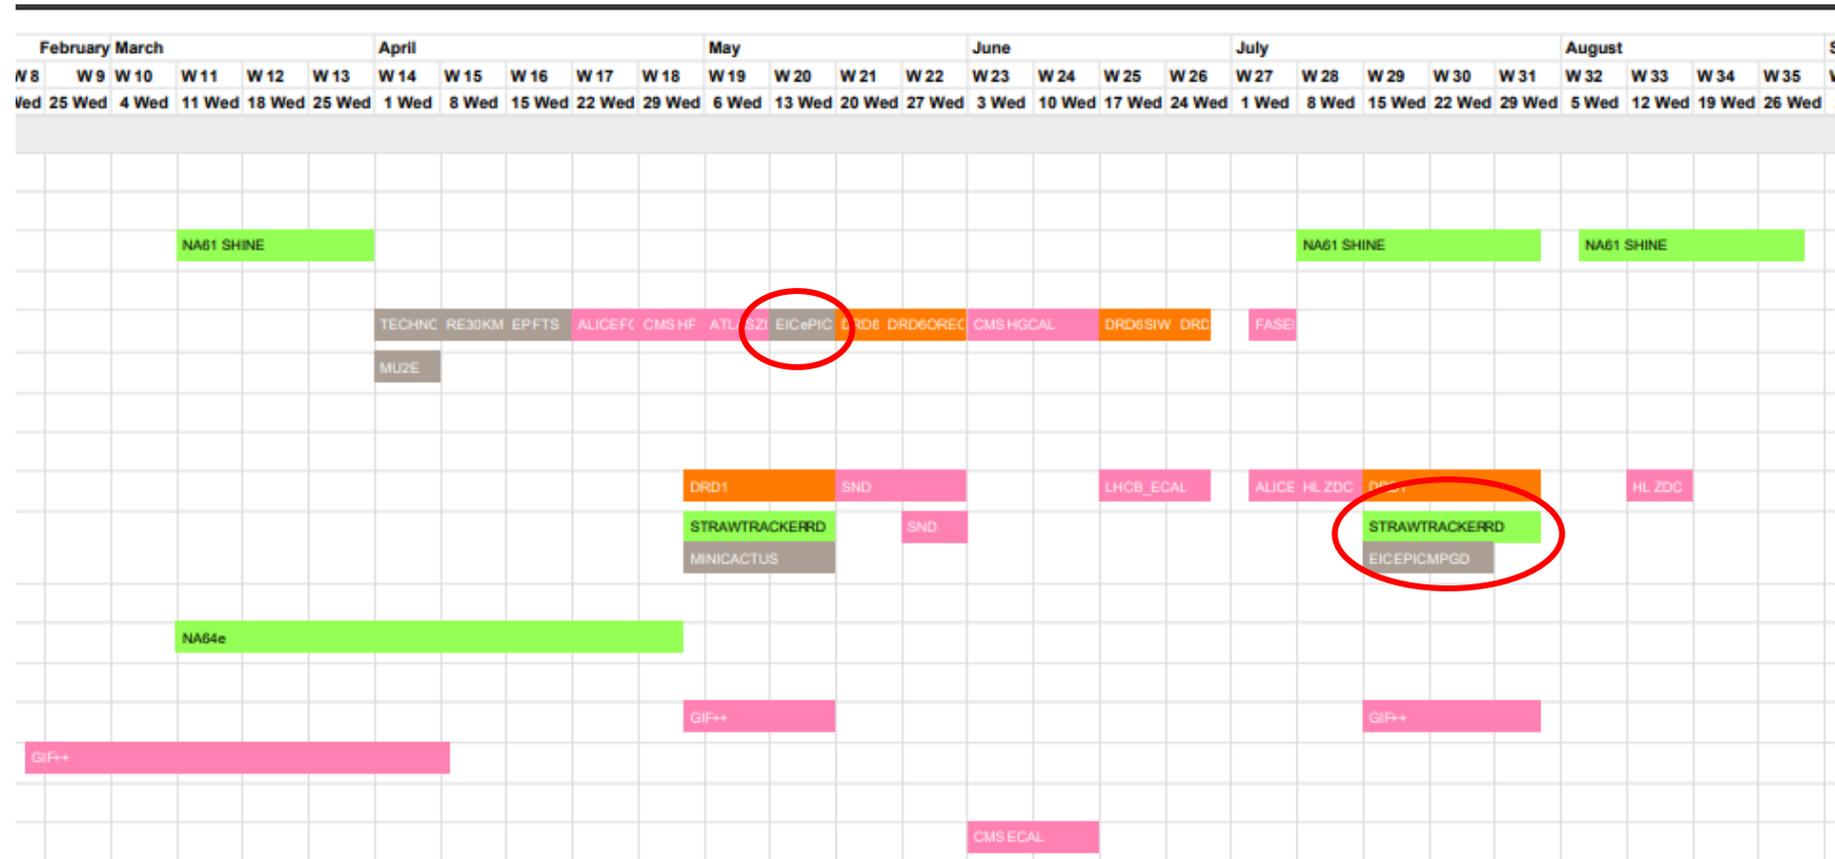

PS T8/T10 schedule draft

- Everyone in ePIC got accommodated
 - Wk 15: LFHCAL
 - Wk 24/25: Joint beam time of dRICH and pRICH
 - Wk 35: BIC
 - (MPGD was offered time earlier than hoped for, so had to decline)

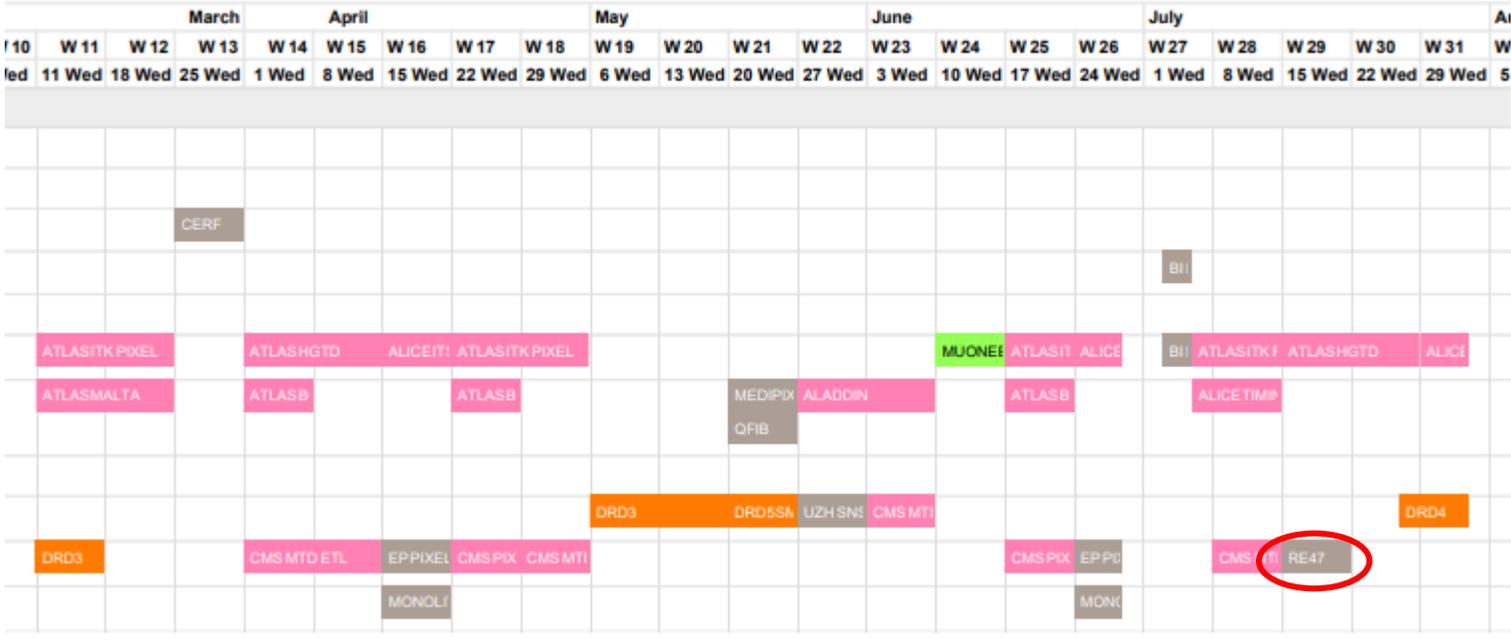

SPS H2/H4 schedule draft

- Everyone in ePIC got accommodated – this is huge
 - Wk 20: LFHCAL
 - Wk 29/30: MPGD as part of DRD1

SPS H6 schedule draft

- Everyone in ePIC got accommodated – this is huge
 - Wk 29: AC-LGAD in parallel with other fast silicon projects

Summary

- Everyone in ePIC got accommodated – this is huge
- Still trying to get formal “ePIC” workshop space at CERN for setup, commissioning, medium-term storage etc.
 - Will update here when there is movement
