

SVT IB design update

RT

New positions for SIBs

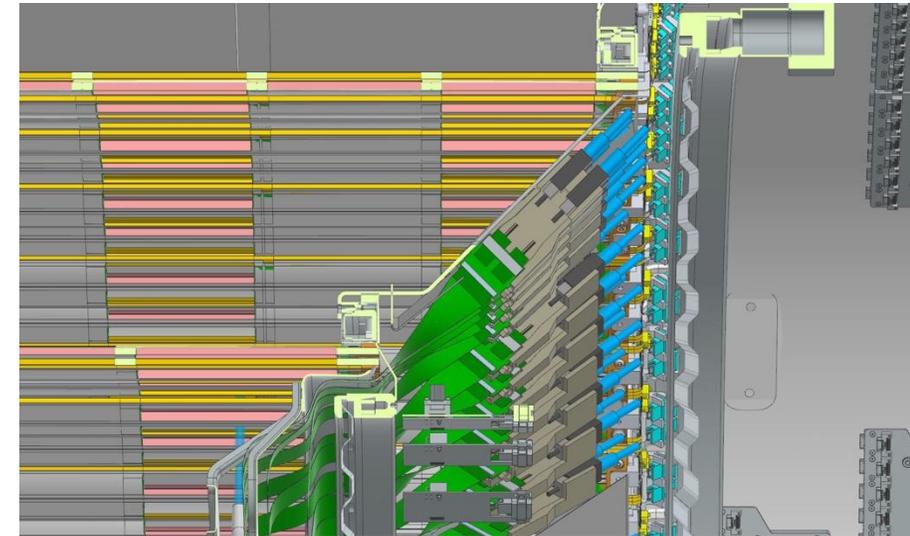

FPCs lengths:

L0 415 mm

L1 387 mm

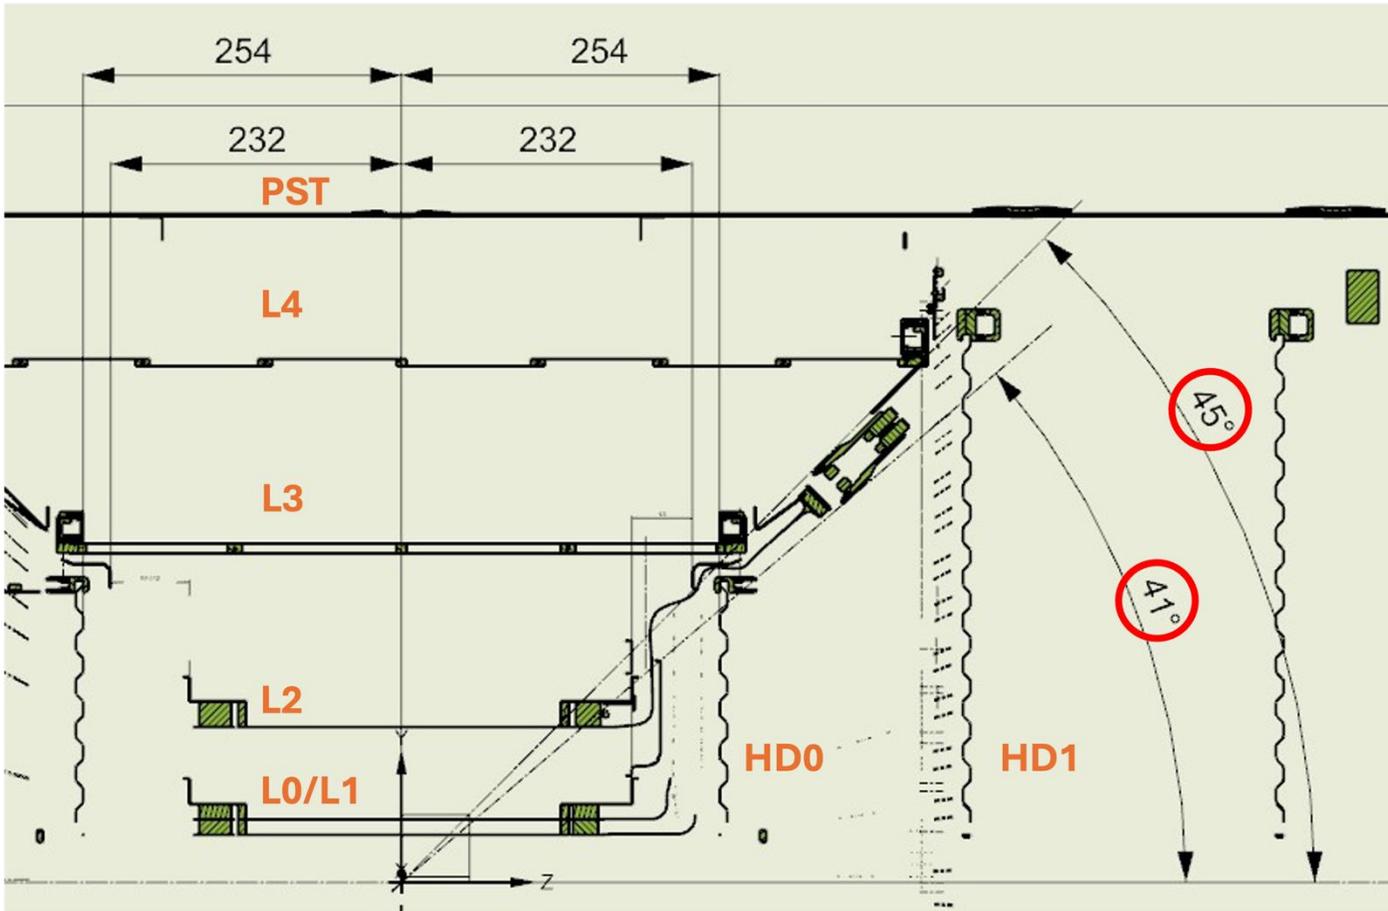

L2 310 mm

typical values, few mm variations happen within the same layer

SIBs pigtails kept at 22.5 mm, shorter than real ones, will test the possibility to have a loop or make them even shorter in order to have a more compact support

Cross sections – check the shadow!
