

UCSC support for test beam

Equipment

- CAEN 16ch digitizer
- CAEN 1ch HV module (remote controlled)
- X-Y stages if needed (same as Jlab)
- Modified FNAL 16ch boards
- HV/LV cables

Support

- Can send 1 person (experience with test beam and reconstruction code)
- Can assemble boards and test prior with laser TCT
- Can test EICROC (have setup, still not operational)
- Can help in writing DAQ code and analysis
