

Session Program

9-10 Jul 2026

RHICfest

Unmatched beam flexibility & performance

BNL, Science & User Support Center (SUSC)
Building 101

Thursday 9 July

09:05

Unmatched beam flexibility & performance: Unmatched beam flexibility & performance

Session | **Location:** BNL, Science & User Support Center (SUSC), Building 101 | **Convener:** Stephen Peggs

09:05–09:35 The heavy ion story

Speaker

Wolfram Fischer

09:35–10:05 Optics flexibility and pre-history

Speaker

Steven Tepikian

10:05–10:35 The polarization story

Speaker

Thomas Roser

10:35–11:00 Coffee Break

11:00–11:30 Bunched beam stochastic cooling

Speaker

Michael Blaskiewicz

11:30–12:00 RF-based electron cooling

Speaker

Alexei Fedotov

12:00
