EIC Computing at BNL AHM #4

Dmitry Arkhipkin

2026-06-05

CRISP aka Membership DB

General Updates

- Inspire XML format for the Author Lists generation
- Assigned Task export and validations
- Meeting scheduling tools similar to when2meet, Doodle – privacy, integration with Members, Groups
- GraphQL endpoint auth via Bearer tokens

Workflows

- Document Workflows: added new blocks, being tested by Daniel (publications) and Eric (membership)
- Task Assignment Workflows: new workflow type requested by the Membership Committee, operates on Assigned Tasks and its statistics – in works

Integrations

- PanDA integration in works: Production group membership => CoManage => Panda Token (TBC, Sakhil + Rob)

...also, numerous bugfixes and adjustments based on ePIC and STAR user feedback
