

Updates from PACs

Rachel Montgomery (Glasgow) & Salvatore Fazio (Calabria)

Rosi Reed (Lehigh)

Physics Analysis Coordination Meeting – June 30th, 2026

○ Early Science Report

- Editorial team have been working on implementing the feedback, thank you for the help so far
- See compiled feedback received on Zenedo (<https://zenodo.org/records/21001099>)
- New draft of ESR (v3.0) will be uploaded to Zenedo before end of this week
- We will then pass v3.0 to CC chairs and ePIC spokespeople for a final read, then they will send directly to ALDs
- Very nice talks from PWGs and analysers at General Meeting last Friday (<https://indico.bnl.gov/event/32939/>)

This has been a marathon which would not be possible without the PWG convenors and analysers

- congratulations and thank you for your efforts

Updates from PACs

- **Reminder on NIM-A Special Issue: ~October** - submit **seven papers**
 - TDR Ch.4 and ESR spin offs (**2 papers**)
 - ESR analysis papers (Inclusive, SIDIS, EDT, Jets+HF) **4 independent papers**
 - BSM+EW opportunities with the full scale EIC
 - Discussion on statuses today
- **Simulations :**
 - July campaign will be the 9GeV electron beam and higher proton energy 275 GeV campaign for the NIM A studies
 - PWG requests should have already been submitted to software and computing
 - **Please let us all know urgently if there have been any issues**

Updates from PACs

Next physics forum:

- Expected to be July 7th at 11am ET
- TBC in the next day or two
- If anyone we have overlooked wants to present at this forum let us know ASAP
 - Note: Analysis Notes need to be approved by PWG convenors and then circulated to the Collaboration a few days before the forum!

Next Joint Physics and Software meeting

- July 8th @ 11am ET
- Details to be released later

Glasgow Collaboration meeting

- EDT workfest Wed morning, also expect some analysis talks at ECR meeting
- Self-contributed talks Fri afternoon - would be good to have more physics talks there, especially ones of interest to whole collaboration or cross-cutting talks
