

- EICROC1

- EICROC1 Testboard and ZCU106 at BNL in use by Rachel
- ASICs and 2 Testboards arrived at BNL but can't seem to be found?

- FCFD

- We can easily interface our RBv1 to the FCFD Testboard using our existing FMC-to-Kyocera adapter [Mike]
 - we are ready to go, waiting for the ASIC and the Testboard

- Roman Pots 1x3 ASIC Module [Jack]

- schematics complete at this stage [Jack]
 - we plan to have a mini-Review next week (if possible) to finalize it (Jack, Christophe et al, Alex, Mike, Don, TL)
- layout of the PCB has already started
- good progress!
