

# Initial Stages 2019

## Tuesday, June 25, 2019

**Parallel: Forward/saturation/spin - 329 (5:00 PM - 7:00 PM)**

**-Conveners: Thomas Ullrich**

time	[id] title	presenter
5:00 PM	[13] Non-linear evolution in QCD at high-energy beyond leading order	DUCLOUE, Bertrand
5:20 PM	[94] Measurements of nuclear parton distribution functions using dijets, forward jets, and photo-nuclear jets at the CMS detector & prospects for measurements in Run III	BYLINKIN, Alexander
5:40 PM	[95] First measurement of Diffraction in pPb collisions and recent results on ultra-peripheral heavy-ion processes	WALCZAK, Marek
6:00 PM	[50] EPR paradox and quantum entanglement at sub-nucleonic scales	TU, Zhoudunming
6:20 PM	[34] Magnetic field in expanding quark-gluon plasma	TUCHIN, Kirill
6:40 PM	[107] Relaxation dynamics of chiral transports and spin polarization in Quark-Gluon Plasma	LI, Shiyong
