

Initial Stages 2019

Tuesday, 25 June 2019

Parallel: Forward/saturation/spin - 329 (17:00 - 19:00)

-Conveners: Thomas Ullrich

time	[id] title	presenter
17:00	[13] Non-linear evolution in QCD at high-energy beyond leading order	DUCLOUE, Bertrand
17:20	[94] Measurements of nuclear parton distribution functions using dijets, forward jets, and photo-nuclear jets at the CMS detector & prospects for measurements in Run III	BYLINKIN, Alexander
17:40	[95] First measurement of Diffraction in pPb collisions and recent results on ultra-peripheral heavy-ion processes	WALCZAK, Marek
18:00	[50] EPR paradox and quantum entanglement at sub-nucleonic scales	TU, Zhoudunming
18:20	[34] Magnetic field in expanding quark-gluon plasma	TUCHIN, Kirill
18:40	[107] Relaxation dynamics of chiral transports and spin polarization in Quark-Gluon Plasma	LI, Shiyong
