

Results on New Particles from Belle

Friday, 16 August 2013 09:10 (20 minutes)

We report recent Belle results on new particles including observation of the $Z_c(3894)$, observation of a χ_{c1} gamma resonance, observation of the $\eta_b(1S)$, $\eta_b(2S)$, h_b and χ_b states and determination of the quantum numbers of the $Z(4430)$.
