

# **DPF 2013**

**Tuesday, 13 August 2013 - Saturday, 17 August 2013**

**University of California, Santa Cruz**

## **Scientific Program**

The program will consist of two days of plenary sessions with invited talks, followed by two days of parallel sessions with invited and contributed presentations. A final day of summary talks will give a broad perspective on the status of the field. A dedicated poster session will offer a chance for in-depth discussion of selected topics.

## **Electroweak Symmetry Breaking and the Higgs Sector**

## **Physics Beyond the Standard Model**

## **Quark and Lepton Flavor Physics**

## **Top Quark Physics**

## **Electroweak Physics**

## **QCD Physics**

## **Neutrino Physics**

## **Cosmic Frontier**

## **Accelerators, Detectors, and Computing**

## **Field and String Theory**
