

CI for Code and Documentation

Saturday, 5 October 2019 09:50 (5 minutes)

At the recent Documentathon, a system to create and host EPICS documentation has been added to the services that EPICS uses for Continuous Integration (CI).

The talk presents the status of the EPICS CI systems for code and documentation, and how these systems can be used for other EPICS modules, e.g. Record, Device and Driver Support modules.

Track

EPICS services
