

RTEMS with EPICS on VME2500 (QorIQ P2020)

Saturday, 5 October 2019 15:40 (5 minutes)

There are new CPU cards for the VMEbus available with modern processors. These can replace the proven CPU cards like MVME6100/5500/3100/2100.

I will present the latest developments of EPICS 7 on QorIQ CPU's with SMP capabilities under RTEMS5.
