

Save-and-restore port to CS Studio/Phoebus

Saturday, 5 October 2019 12:55 (5 minutes)

The European Spallation Source (ESS) has contributed to CS Studio/Phoebus with a adaptation of the save-and-restore tool in CS Studio/Eclipse. This adaptation includes both a new service for persistence of save-and-restore data, as well as a UI facelift. This talk briefly summarizes the save-and-restore tool in CS Studio/Phoebus, and discusses limitations and future enhancements.

Track

User Interface tools and techniques

Primary author: WEISS, Georg (European Spallation Source)
