

XXVIII International Workshop on Deep Inelastic Scattering and Related Subjects

Contribution ID: 103

Type: **Invited Talk**

QCD and hadronic final state (heavy quarks and flavours) from LHC and RHIC

Monday, 23 March 2020 10:10 (35 minutes)

Recent measurements in hadron-hadron collisions at RHIC and LHC involving heavy quarks will be presented. The results are related to the production of c and b quarks and the study of quarkonium. Also measurements involving the search and study of exotic final states, such as tetraquark and pentaquark candidates, are presented and discussed.
