

# XXVIII International Workshop on Deep Inelastic Scattering and Related Subjects

## Thursday, March 26, 2020

### Plenary-II: QCD in the 2030's (11:00 AM - 1:30 PM)

| time     | [id] title  | presenter                 |
|----------|---|---------------------------|
| 11:00 AM | [115] Prospects for QCD, EW and Top Physics at the HL-LHC         | PAGAN GRISO, Simone       |
| 11:25 AM | [116] Prospects for Higgs Physics at the HL-LHC                   | MILLS, Corrinne           |
| 11:50 AM | [117] LHeC physics and connections to LHC                         | SCHWANENBERGER, Christian |
| 12:15 PM | [118] Report on the European Strategy for Particle Physics Update | ABRAMOWICZ, Halina        |
| 12:40 PM | [119] The Physics of the EIC and consequences at the LHC          | HOBBS, Timothy            |
| 1:05 PM  | [120] EIC in US/DOE perspective                                   | HALLMAN, Tim              |
