

Focus of This Meeting

- Re-visit the PRDs identified in 2017
 - Provide input on how these can be prioritized at the ATF
- Identify any critical PRDs for ***electron beam only***
 - Incorporate these into an overall prioritized plan
- A report will be generated for review by the ATF Program Advisory Committee in December
 - **Navid Vafaei-Najafabadi** (SUNY-SB and ATF Facility Scientist) will coordinate editing of the report
- The ATF team will provide a prioritized plan to the APAC in December
- The APAC considerations and recommendations will then go to DOE
