

Session Program

21-24 Jan 2020

Exploring QCD with light nuclei at EIC

Tensor polarization

SBU Physics Building C-120
Stony Brook University Stony Brook, NY 11794

Thursday 23 January

14:00

Tensor polarization

Session | **Location:** SBU Physics Building C-120, Stony Brook University Stony Brook, NY 11794

14:00–14:40 **Partonic structure of tensor-polarized deuteron**

Speaker
Shunzo Kumano

14:40–15:10 **Tensor polarized deuteron target development**

Speaker
Karl Slifer

15:10–15:40 **Tensor polarized measurements with EIC**

Speaker
Ellie Long

15:40
