Workshop logistics

2021: the 10th workshop in the series

- QCD Evolution Workshop 2021 is the 10th workshop in the series initiated in 2011 by Alexei Prokudin, Anatoly Radyushkin, and Ian Balitsky at Jefferson Lab
 - This year we have 172 participants

- QCD Evolution Workshop has grown to be a leading hadron physics meeting with a focus on hadron tomography - one major focus of the future Electron Ion Collider

Remote Instructions

- They are sent via email, so only registered participants have access to these links
- If you log into your indico account, you will see an internal page called “Remote Instruction”, which contains all the links

On Wednesday (4 - 5 PM), John Collins will be giving a seminar at Berkeley nuclear theory group. You are welcome to listen to his seminar. The information is in our indico timetable, and the zoom link is here.

Remote Instructions

Note this page is only visible to the registered users only. Once you log into your indico account, you should be able to see this page. Please don't our meeting links in public, thank you!

- All the presentations will be handled via ZOOM platform.
<https://indico803.bnl.gov/join/147?pwd=S29FN2W1NE1ycvnlEdw353nBfN1fZz09>
- The social and coffee break will be conducted via wonder.me platform. Our wonder room: Evolution Coffee, which is available here: <https://wonder.me/indico803.bnl.gov/join/147?pwd=S29FN2W1NE1ycvnlEdw353nBfN1fZz09>
- On Wednesday (4 - 5 PM ET), John Collins will give a nuclear theory seminar at Berkeley Lab. With his permission, we also advertise his talk on our timetable. To join his seminar, use the Berkeley Lab Zoom link: <https://indico803.bnl.gov/join/147?pwd=S29FN2W1NE1ycvnlEdw353nBfN1fZz09>

Promotion

- All the talks are recorded
- We will tweet about every single talk at the workshop Twitter page

- If you have a Twitter account and we haven't followed you, let us know
- If you have a Twitter account, of course please follow us :)

Twitter team

- Our local organizing committee will prepare the tweets
- We send out the tweets at the end of day after all the talks are finished
 - Fanyi Zhao
 - Jared Reiten
 - John Terry
 - Kyle Lee (Postdoc, Berkeley Lab)
 - Dingyu Shao (Fudan University, Shanghai)

Thank
you!

Have a productive workshop!
