PREShower

SiPM & FEEBd
  Are we replacing SiPMs ?
  If so, what will be SiPM of our choice?
  Can we still use the same FEEBd or need update with new type of SiPM?
  Switching control from TUFF to DEP?

Scintillators
 FPS or FPOST or mix?
  Can we use FPOST FEEBd with FPS?

Cables/PS
  Signal cables = we ca re-use FPOST
  Control cable = can we reuse (if we switch to DEP)?\

Manpower?

Can we use EPD?

Eleanor

A couple of first "DSM2" in run2021
    Artix FPGA/ConnectCore (same as DEP)
    fiber I/O ports driven by the FPGA's GTP Transceivers
    128bit/RHIC clock ~ 1.28 Gb/s < 6.6Gb/s
