

SDCC/RACF Liaison Meeting

March 26, 2020

Facility News

- Most of SDCC/RACF staff working from home since Monday, March 16th
- Min-safe operations since Monday, March 23rd
 - Only designated essential personnel allowed on-site until further notice
 - Essential personnel on-site for activities where physical presence is needed—minimize on-site presence otherwise
 - Examples of such activities include replacing disk drives, adding tapes to silos, removing stuck tapes from tape drives, replacing power supplies in critical servers, etc
- SDCC/RACF is fully functional, but resolution of tickets and other requests may be slower than normal due to staff's individual availability in min-safe operations
