nuclear parton distribution functions

ManeParse: A Mathematica Interface to the PDFs

ManeParse is a modular Mathematica package that provides access to PDFs for hadronic calculations. It allows LHAPDF6 files and estimates PDF errors for Hessian and MC releases.

ManeParse Publication:

Download the publication here:

- **ManeParse : A Mathematica reader for Parton Distribution Functions**
D.B. Clark, E. Godat, F.I. Olness.
Comput.Phys.Commun. 216 (2017) 126-137.
or: arXiv:1605.08012 [hep-ph] .

ManeParse version 3.0, Mathematica package:

An SIMPLE example using LHAPDF Tables for PDFs:

This is an self-contained example that reads PDF tables in LHAPDF format.

PDF_DEMO_v01.zip

(850Kb, Version May 2020).

Includes PDF Grid files needed for demo.

A SIMPLE example using Structure Function Tables:

This is an self-contained example that reads Structure Function tables in LHAPDF format.

SF_DEMO_v01.zip

(460Kb, Version May 2020).

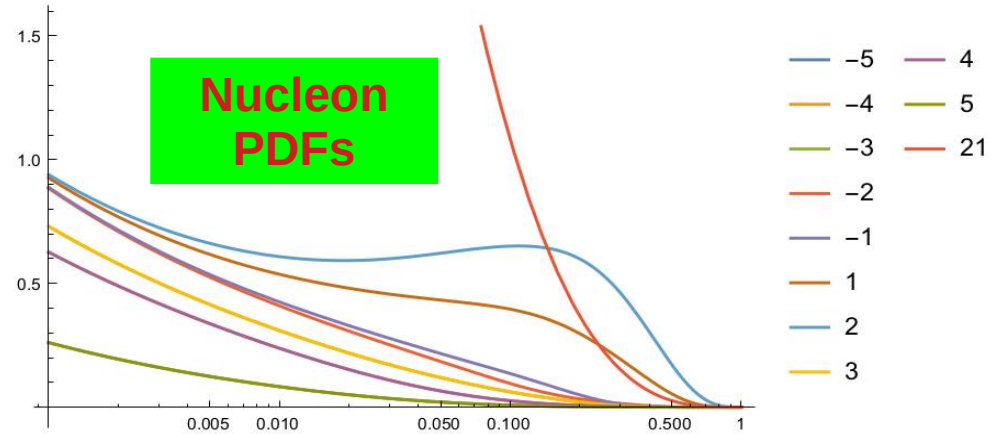

Includes Structure Function Grid files needed for demo.

Thanks to Tim Hobbs for supplying the sample tables.

Tim Hobbs
