

# XXVIII International Workshop on Deep-Inelastic Scattering and Related Subjects

Contribution ID: 647

Type: **Contributed Talk**

## Combined Higgs boson measurements at the ATLAS experiment

*Tuesday, 13 April 2021 11:13 (15 minutes)*

The most precise measurements of Higgs boson cross sections, using the framework of simplified template cross sections, are obtained from a combination of the measurements performed in the different Higgs boson decay channels. This talk presents the combined measurements, as well as their interpretations.

**Presenter:** CIUNGU, Bianca

**Session Classification:** Electroweak Physics and Beyond the Standard Model

**Track Classification:** Electroweak Physics and Beyond the Standard Model
